Important Information

Drink plenty of water and eat a light snack or meal beforehand, which helps prevent dizziness or fainting.

**When to Wait:** You can still get the shot if you have a mild cold. If you have a moderate or severe illness with a fever, wait until you recover.**Talk to Your Provider First:**

Tell your doctor or pharmacist if you have ever had a severe allergic reaction to a previous flu vaccine, have severe egg allergies (though most modern shots are safe), or have a history of Guillain-Barré Syndrome.
